IPS							Date Revised:	APR 2007				
WELD-ON	MATERIAL SAFETY DATA SHEET							Supersedes: JAN 2005				
Information on this form is furnished solely for the purpose of compliance with the Occupational Safety and Health Act and shall not be used for any other purpose.												
IPS Corporation urges the customers receiving this Material Safety Data Sheet to study it carefully to become aware of the hazards, if any, of the product involved. In the interest of safety, you should notify your employees, agents and contractors of the information on this sheet.												
SECTION I												
MANUFACTURER'S NAME Transportation Emergencies:												
IPS Corporation		CHEMTREC: (800) 424-9300										
ADDRESS		Medical Emergencies:										
17109 S. Main St., P.O. Box 379, Gardena, CA. 90248 3 E COMPANY (24 Hour No.) (800) 451-8346 Business: (310) 898-3300												
CHEMICAL NAME and F	AMILY		TRADE NAME:									
Mixture of ABS Resin and	Organic Solvent	WELD-ON 2771 and 2773 Low VOC Pipe Cement for ABS Plastic Pipe										
ABS Plastic Adhesive			FORMULA: Proprietary									
SECTION II - HAZARDOUS INGREDIENTS												
None of the ingredients be												
carcinogens by IARC, NT	P or OSHA	CAS#	APPROX %	ACGIH-TLV	ACGIH-STEL	OSHA-PEL	OSHA-STEL					
Acrylonitrile Butadiene Sty	urono Posin (ABS)	NON/HAZ	,	N/A		N/A						
Methyl Ethyl Ketone (MEk	, , ,	78-93-3	50 - 65*				300 PPM					
Acetone	()	67-64-1	10 - 15	500 PPM	750 PPM	750 PPM	1000 PPM					
All of the constituents of V	Veld-On adhesive products	are listed on the TSCA invento	ory of chemica	l substances i	maintained by t	he US EPA, or	r are exempt fro	om that listing.				
* Title III Section 313 Sup	plier Notification: This produ	ct contains toxic chemicals su	biect to the re	porting require	ements of Sect	ion 313 of the	Emergency Pla	nning				
		CFR372. This information mu					• •	0

		EQUIPMEN	IT:	B - H		4 - SEVE	RE					
	N FOR CONTAINERS LES	S THAN ONE LITER										
	OT Shipping Name: Consumer Commodity				B = Eye, Hand/Skin (for normal solvent-welding, small spill, clean-up activities)							
DOT Hazard Class:	ORM-D			H = Eye, Hand/Skin, Respiratory Protection and Impermeable Apron (splash/								
	immersion risks)											
- '		SECTION III - P	HYSICA	L DATA	4							
APPEARANCE		ODOR	BOILING POINT (°F/°C)									
2771: Milky, translucent,	medium syrupy liquid	Ketone	175.2°F (79°C) Based on MEK				MEK					
2773: Black opaque, med												
SPECIFIC GRAVITY @ 7	. ,	VAPOR PRESSURE (mm										
Typical 0.875 - 0.894 ± 0.0	040	71.2 mm Hg. Based on M	IEK @ 73°F (23°C) Approx: 50 - 70 %									
VAPOR DENSITY (Air = '	1)	EVAPORATION RATE (B	UAC = 1)		SOLUBILIT	Y IN WATER						
2.5	•	Approx. 5.7				Solvent portion completely soluble in water.						
			Resin portion separates				-					
VOC STATEMENT: Maxir	num VOC emissions as app	lied and tested per SCAQMD	Rule 1168, Te	est Method 31	6A: 325 Gram	s/Liter (g/l).						
	SECTI	ON IV - FIRE AN	D EXPL	OSION	HAZARD	DATA						
FLASH POINT				FLAMMABL	E LIMITS		LEL	UEL				
21°F (-6°C) T.C.C. Based	on MEK			(PERCENT E	BY VOLUME)		1.8	11.5				
FIRE EXTINGUISHING M	IEDIA											
Ansul "Purple K" potassiu	m bicarbonate dry chemical	, any appropriately sized ABC	dry chemical,	carbon dioxid	e or foam extin	iguisher can be	e used for small	l fires.				
Use of a water fog by trair	ned personnel can extinguis	h small/large fires.										
SPECIAL FIRE FIGHTING												
		ars or confined spaces require	self-contained	d breathing or	naratus nositi	VA Dressura m	ask or airling m	ask				
Evacuate enclosed areas. Stay upwind. Close quarters or confined spaces require self-contained breathing apparatus, positive pressure mask or airline mask. Use of a water fog by trained personnel can extinguish small/large fires and avoid water flow or water streams/spray distributing burning material or contaminated												
water over a large area or into sewers or storm drains. Use water spray to cool containers, to flush spills from source of ignition and to disperse vapors.												
	into sewere or storm urdine	. 555 water spray to 6001 6011				and to dispe	100 vaporo.					
UNUSUAL FIRE AND EX	PLOSION HAZARDS											
		lity. Vapors are heavier than a	ir and may tra	vel to source(s) of ignition at	or near ground	d or lower levels	s and flash				
back.			-	,	-	2						

SECTION V - HEALTH HAZARD DATA											
PRIMARY ROUTES OF ENTRY:	х	Inhalation	х	Skin Contact	Eye Contact	Ingestion					
EFFECT OF OVEREXPOS			A								
ACUTE: Inhalation: Concentrations of 100-300 ppm cause nose and throat irritation. Higher concentrations cause irritation, headache, nausea,											
	drowsiness, dizziness, incoordination.										
Skin Contact: Eve Contact:	•	Prolonged exposure to liquid or vapors at concentrations greater than the TLV causes moderate irritation and dermatitis. Liquid and vapors are irritating to eyes. Can cause severe injury - damage reversible.									
Ingestion:	Moderately toxic. May cause nausea, vomiting and diarrhea.										
CHRONIC:	There is no evidence that exposure to Methyl Ethyl Ketone (MEK) alone causes progressive or irreversible neurotoxic effects. However, simultaneous over-exposure to MEK and n-Hexane can potentiate the known irreversible neurotoxic effects of n-Hexane.										
	There is no reported human evidence that these neurotoxic effects occur when exposure to both chemicals is maintained below established OSHA and ACGIH limits.										
REPRODUCTIVE EFFECTS	TERATOGENICITY MUTAGENICITY EMBRYOTOXICITY SENSITIZATION TO PRODUCT SYNERGISTIC PRODUCTS										
N. AP. MEDICAL CONDITIONS A	N. A GGRAVATE		N. AP. RE: This ma	N. AP. Aterial may aggravate ar	N. AP. existing dermatitis. E	N. AV. Breathing of vapor and/or mist may					
aggravate asthma and infla					U U						
EMERGENCY AND FIRST			ave to freek	oir and if broathing ato	and aive artificial to	opiration. If broothing is difficult, give operan					
Inhalation:	If overcome by vapors, remove to fresh air and if breathing stopped, give artificial respiration. If breathing is difficult, give oxygen. Call physician.										
Eve Contact:		Flush eyes with plenty of water for 15 minutes and call a physician.									
Skin Contact:		Remove contaminated clothing and shoes. Wash skin with plenty of soap and water for at least 15 minutes. If irritation develops, get medical attention.									
Ingestion: Give 1 or 2 glasses of water or milk. Do not induce vomiting. Call physician or poison center immediately.											
		_		ECTION VI - F	REACTIVITY						
STABILITY UNSTABLE STABLE		X		ONS TO AVOID ay from heat, sparks, op	en flame and other so	surces of ignition					
INCOMPATIBILITY		Λ	Reep awa	ay nom neat, sparks, op							
(MATERIALS TO AVOID) Caustics, ammonia, inorganic acids, chlorinated compounds, strong oxidizers and isocyanates.											
HAZARDOUS DECOMPOSITION PRODUCTS On combustion: Dense smoke containing carbon monoxide, carbon dioxIde and hydrogen cyanide.											
HAZARDOUS	MAY OCC		X	CONDITIONS TO /							
POLYMERIZATION	WILL NOT					e and other sources of ignition.					
SECTION VII - SPILL OR LEAK PROCEDURES STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED											
Eliminate all ignition sources. Avoid breathing of vapors. Keep liquid out of eyes. Flush with large amount of water. Contain liquid with sand or earth. Absorb with sand or nonflammable absorbent material and transfer into steel drums for recovery or disposal. Prevent liquid from entering drains.											
WASTE DISPOSAL METH											
Follow local, State and Federal regulations. Consult disposal expert. Can be disposed of by incineration. Excessive quantities should not be permitted to enter drains. Empty containers should be air dried before disposing.											
		SECTION	I VIII -	SPECIAL PR	OTECTION	INFORMATION					
RESPIRATORY PROTECTION (Specify type) Atmospheric levels should be maintained below established exposure limits contained in Section II. If airborne concentrations exceed those limits, use of a NIOSH approved organic vapor cartridge respirator with full face-piece is recommended. The effectiveness of an air purifying respirator is limited. Use it											
only for a single short-term exposure. For emergency and other conditions where short-term exposure guidelines may be exceeded, use an approved positive pressure self-contained breathing apparatus.											
VENTILATION											
Use only with adequate ventilation. Do not use in close quarters or confined spaces. Open doors and/or windows to ensure airflow and air changes. Use local exhaust ventilation to remove airborne contaminants from employee breathing zone and to keep contaminants below levels listed in Section II. Use only explosion-proof ventilation equipment.											
PROTECTIVE GLOVES	PVA coa	ated rubber glove	es for frequ	ent dipping/immersion.	Use of latex/nitrile	EYE PROTECTION Splashproof chemical goggles,					
surgical gloves or solvent resistant barrier cream should provide adequate protection when normal solvent- cement welding practices and procedures are used for solvent welding of plastic sheet/pipe joints. face shield, safety glasses (spectacles) with brow guards and side shields, etc. as appropriate for exposure.											
OTHER PROTECTIVE EQUIPMENT AND HYGIENIC PRACTICES Impervious apron and a source of running water to flush or wash the eyes and skin in case of contact.											
SECTION IX - SPECIAL PRECAUTIONS											
PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING Store in the shade between 40°F - 110°F (5°C - 44°C). Keep away from heat, sparks, open flame and other sources of ignition. Avoid prolonged breathing of vapor. Use with adequate ventilation. Avoid contact with eyes, skin and clothing. Train employees on all special handling procedures before they work											
with this product.											
OTHER PRECAUTIONS Follow all precautionary information given on container label, product bulletins and our solvent cementing literature. All material handling equipment should be electrically grounded.											
The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of this data or the results to be obtained from the use thereof.
